TRACK MEET BIG ATTRACTION NOW

TIME HAS COME WHEN WE SAY "IT'S NEXT WEEK."

64 FROM 30 SCHOOLS IN LITERARY CONTESTS

Section Meets Are On and Both St. Joseph Teams Will Come in Special Train.

The time has come when we can say "The track meet next week." Therefore all interest in athletic events in northwest Missouri seems to be turning toward Maryville. Both the Kansas City and St. Joseph papers yesterday made mention in stories of some length of the northwest Missouri high school meet here May 6.

Regarding the participation of the St. Joseph teams, the Gazette this morning says:

"Both Central and Benton high schools will enter athletics in the big meet and Coaches Moyer and Troxel are confident of being able to bring home some of the prizes. Central has always made a splendid showing and has to date always been returned the winner of the meet. Moyer is certain that his present aggregation of track and field men can do as well as have those in the past and he believes that Central will again win the meet."

"Benton has entered the meet only once before in its history but this year a great deal more attention than ever before has been given track athletics at the South Side school and Troxel is confident that his men can make an excellent showing. Benton has heretofore confined its track activities to inter-class meets and this plan has been followed this year to the extent of working out the men in this way. A special train will be run to Maryville, and it is expected that about 250 people will accompany the two St. Joseph teams to the meet."

Entry blanks have been mailed to 116 schools and the vast majority of these have signified their acceptance of the invitation. The schools which have been invited are:

Albany, Altamont, Agency, Amity, Anazonia, Avalon, Barnard, Bedford, Bethany, Bigelow, Blytheville, Bogard, Bolckow, Bosworth, Braymer, Breckenridge, Burlington Junction, Cainesville, Cameron, Carrollton, Chillicothe, Chula, Clarkdale, Clearmont, Coffey, Corning, Cowgill, Craig.

Darlington, Dawn, Dearborn, DeKalb, DeWitt, Eaglesville, Easton, Edgerton, Elmo, Excelsior Springs, Fairfax, Faucett, Fillmore, Forest City, Fortescue, Gallatin, Galt, Gentry, Guilford, Gilman City, Gower, Graham, Grant City, Hale, Hardin, Hamilton, Henrietta, Holt, Hopkins, Jameson, Jamesport, Kearney, King City, Kingston.

Laredo, Lathrop, Ladlow, Liberty, Lock Springs, McFall, Maitland, Maryville, Mayssville, Mercer, Missouri City, Mound City, Moorsville, Mount Moriah, New Hampton, Norborne, Oregon, Orrick, Osborn, Parnell, Pattonsburg, Pickering, Platte City, Plattsburg, Polo, Princeton.

Ravenwood, Richmond, Rayville, Ridgeway, Rock Port, Rushville, Rosendale, St. Joseph, Savannah, Sheridan, Skidmore, Smithville, Spickard, Stankerry, Stewartville, Tankio, Tina, Trenton, Trimble, Turney, Union Star, Utica, Watson, Westboro, Weston, Wheeling, Windsor, Winston.

Sectional Meets First. All the sectional meets in various parts of the district will be held this week and next, and the results there are being watched with interest. Next Saturday a tri-county meet is to be held at New Hampton, in which the schools of Harrison, Gentry and Worth counties will take part.

New Hampton won the Harrison county high school track and field meet held at Ridgeway Friday, and in which four schools, Bethany, Cainesville, New Hampton and Ridgeway participated. The winners won 63 points. Ridgeway was second with 45 points. Bethany third with 16, and Cainesville fourth with 6 points.

Marlan Mock of New Hampton was the individual star, winning 29 points for his team, and D. Stone of Ridgeway

was a close second with 27 points to his credit. The silver loving cup for the highest individual score goes to Mock.

30 H. S. in Literary Contest. The entries for the literary contests of the big meet have been received by Prof. H. P. Swinehart, corresponding secretary. It is possible that a few entries may be received yet, as the mailing date of the letter is taken as the guide. Saturday was the last day.

Thirty high schools are entered. This gives promise of a much bigger year than last, when thirty-three only were entered in all events. It is certain that some schools will send athletic contestants who will not have literary entries. The entries are divided among the following events:

Girls' declamation, 25.
Essays, 14.
Oratory, 19.
Extemporaneous speaking, 3 boys and 3 girls.

SUMMER BULLETIN IS OUT

NORMAL TELLS OF ADVANTAGES OF NEXT SEASON.

Commencement, Tenth Anniversary Celebration and Coburn Players Among Attractions.

A bulletin of the State Normal school with the announcements and tentative program for the summer session are being mailed out from the office of President Ira Richardson this week. The spring term closes Friday, May 26, and the summer session will open May 29.

Preparations are being made for the largest summer attendance ever given the school and the teaching force will be enlarged as usual to accommodate the students. The session will close this summer August 5.

It is pointed out in the bulletin this year that the summer students will have the privilege of attending commencement, which has been postponed until June 11-13. The sermon will be preached Sunday, the class day festival Monday, and the commencement day proper June 13, at which time the tenth anniversary of the founding of the Fifth District State Normal school will be celebrated.

Many speakers of note will be here for that day. Another privilege of the summer students will be the third returning of the Coburn Players, June 26 and 27. Special lectures will be offered in assemblies also during the summer.

A CHURCH EASTER WILSON'S LAST WORD

"GLAD RAGS" ALREADY LARGELY PURCHASED.

DRESS PARADE LACKING

But Crowded Auditoriums Heard Cantatas Last Night—Largest at First Methodist for "Bethany."

Easter was fittingly observed yesterday in Maryville, particularly in the churches. The season came so late that most of the new bonnets, shoes and finery had already been purchased so the dress parade feature of the day was rather lacking. But it was hard to realize on Main street that it was not Saturday night instead of Sunday about 9:30 last night when the churches dismissed.

The Presbyterian and First Methodist churches divided honors about equally last night in attendance. The cantata "Life and Death" at the Presbyterian church was rather short and quite a number of music lovers went over to the Methodist church and filled the few empty places remaining.

Mrs. W. M. Case was unfortunate in having a severe cold but was able to carry the soprano part of the quartets through. R. V. Magers, tenor, from Parkville delighted those who heard him. "Bethany" the cantata given at the First Methodist church, was very elaborate and took an hour and a half to give.

It was accompanied by the following instruments: Piano, Mrs. W. K. Jackson; organ, Miss Lucile Aiky; first violin, Misses Edythe Wilson and Blanche Gray; second violin, Miss Kathryn Carpenter; viola, Oliver Kirby; cello, Edward Rea; bass violin, Hal Hooker; first cornet, T. B. Maulding; clarinet, Harold Maulding; trombone, Loyd Miles.

The solo parts were taken by Mrs. Charles Moore, Mrs. Charles Thorp, Miss Jennie Garrett, Miss Nellie Wray and Gilbert S. Cox.

South Methodists Receive 26.

The principal event of the day with the Buchanan Street Methodist church was the receiving of twenty-six members who were won to the church by the personal evangelism campaign of the last month. Easter Sunday was the prospective day.

Sixteen of the twenty-six were on profession of faith. Nine of the sixteen were children and seven adults. Ten were received by letter. The pastor, the Rev. R. C. Holliday, is highly pleased with the results of the "One to Win One" work which is intended to be a revival without having any special preaching services of the usual protracted meeting kind. He will hold a class of instruction for the children tomorrow afternoon after school in his study.

Knights Templar at Christian.

Members of the Maryville Commandery No. 40, Knights Templar, attended Easter service Sunday morning at the First Christian church. The Rev. C. Emerson Miller, pastor of the church, took for his subject "A Glorious Resurrection." Mrs. F. P. Robinson sang a solo "The Cross."

MEN LOST TO WOMEN

So Presbyterian Club Will Entertain Tomorrow Night—The Rev. S. D. Harkness to Speak at Banquet.

A contest in attendance and new members between the men's and women's classes of the First Presbyterian church resulted disastrously for the men, and as a result they are entertaining the ladies at a banquet tomorrow night. The Rev. S. D. Harkness will be present and speak.

It is expected today that Mrs. Harkness will accompany her husband. Joseph Jackson, Jr., president of the Men's club, has the arrangements for the banquet in charge. No program will be prepared, but there will be special music. Mr. and Mrs. Harkness are expected from Kansas City on the noon train tomorrow.

WILSON'S LAST WORD

VAN CLEVE SAYS IT'S NOW "UP TO GERMANY."

NO ONE KNOWS WHAT NEXT

But Many Believe Germany Will Yield Sufficiently—House Accepts Lincoln's Birthplace.

(By W. C. Van Cleve.)

Washington, D. C., April 20.—The submarine issue as it affects this country and Germany has at last been brought to the point where it must come to a definite conclusion. President Wilson has sent his last word on the subject and has so notified the congress. He feels that the rights of neutral nations have been grossly abused and that patience has ceased to be a virtue. What the outcome will be is idle speculation. Everybody has his idea, but nobody knows. There is reason to believe that Germany would like to retain the friendship and good will of the United States. It means something now and vastly more in a commercial way after the war is over, but whether Germany will give up any advantage that may accrue from her submarine policy is a question she must settle for herself.

Some are inclined to think Germany will yield sufficiently to prevent a break in diplomatic relations. Others think Germany will pay no attention to the note, which would be tantamount to a refusal to agree to its terms. In case relations are broken off, it is impossible also to forecast what will happen. It may have little or no effect on the nation's affairs or the most serious consequences might follow. One immediate result would be a tightening up as between the government and its enemies in this country. Spies and plotters would not be allowed to prosecute their work where known to the government. There are about \$180,000,000 worth of German ships interned in American waters that would be subject to seizure if war should be declared, and some of them are warships. Some of them might be sunk by their own men before they could be seized. Germany would of course retaliate by seizing property belonging to the United States.

There is no likelihood that there would be any land fighting such as is being waged in Europe, and there is general hope that no break in the friendly relations may be necessary. The United States is in the act of making tremendous additions to its defensive strength, but is not fully prepared for a war with a first class nation. The bill making appropriations for the fortifications and coast defenses which has just been reported to the house carries appropriations nearly four times as large as heretofore. The last fortifications bill provided for an expenditure of about six million dollars, where the present bill carries more than twenty-one millions and provides for the greatest coast defense system in the world, including everything modern and up to date. The naval bill, which is to come in soon, will provide for an increase of two hundred millions over the last appropriation for the navy department. This bill has each year occasioned a bitter fight between the "big navy" and the "little navy" men, and it has been expected that the forthcoming bill would bring about another hard fight in the house of representatives. But the little navy men of last year have become big navy men this year, and the "big navy" men of last year have become still bigger in their demands this year, because of the preparedness agitation.

The United States is not prepared as the great nations of Europe now at war are prepared, nor is she as weak as the unlicensed agitators throughout the country and the so-called "peace pictures" put out by the National Security League would have you believe. The munition manufacturers and kindred interests have put out a lot of interesting and ingenious arguments that are wholly untrue and misleading.

The house did a graceful thing the other day when it voted by unanimous vote to accept a deed to the cabin and grounds where Lincoln was born, and which will be kept up and perpetuated from this on under government supervision. Many members delivered addresses both interesting and instructive on Lincoln the man, and Lincoln the president. Two very interesting talks were of a reminiscent vein by ex-Speaker Cannon and by General Sherwood of Ohio. Both knew the man and recalled some very touching incidents that occurred during their acquaintance and friendship with the martyred president.

OFF TO HIS THIRD GREGORY SAYS "NO"

DR. W. F. BURRIS PROMINENT CONFERENCE DELEGATE.

LEAVES HERE THURSDAY LANSING ASKS RETURN

Business of Maryville District, M. E. Church, to Be Deferred While He is in New York.

When Dr. W. F. Burris leaves Maryville Thursday morning for Saratoga Springs, N. Y., to attend the twenty-seventh quadrennial conference of the Methodist Episcopal church, he will be on his way to his third consecutive general conference. He was a delegate of the Missouri conference to Minneapolis four years ago and to Baltimore eight years ago.

Doctor Burris will carry with him a large picture of the preachers of all branches of Methodism in St. Joseph whom he addressed on the subject of organic union recently which he will present with a resolution passed by the Methodist alliance at that time. The subject of union will be the most important and interesting of subjects taken up by the conference.

The superintendent of the Maryville district said this morning that he was confident that his church would take the same stand as the general conference of the Southern church. Organic union will be endorsed and a commission appointed to meet with a commission from the Southern church, already appointed, to work out the details of the organic uniting of the denominations. This would defer final and complete action for another four years.

Special arrangements will be made by Dr. Burris to fill the preaching dates of the superintendent over the Maryville district during his absence which will be more than a month. May 1-31 is given as the dates of the conference. Unless something special arises the business of the churches, as it concerns the district superintendent, will be deferred until his return.

Four hundred ministers and four hundred laymen will make up the convention. Reviewing of the work of the church for the last four years and revision and addition to its legislation comprises the work of the conference. Bishops, editors, heads of board and publishing houses will be elected for the next four years.

The places of bishops who have died and successors for those who have reached the retiring age, 73, will be elected. The question of whether the church shall elect bishops for the various races and languages will also be discussed in full.

CARRANZA FALL MATTER OF TIME

SO GENERAL SCOTT WILL STAY ON BORDER.

FUNSTON MAY ENTER MEXICO WAR ZONE

Felix Diaz is Showing Strength and May Be Recognized—Troops Better Prepared for Attack.

Special to The Democrat-Forum.

Washington, April 24.—The downfall of the Carranza rule in Mexico in sight because of his attitude toward his advisors, officials declare today.

There is little doubt Carranza will be superseded in the government in the near future if the action has not already been taken.

It is learned on high authority that was the reason why Secretary of War Baker consented to a redistribution of the American troops in Mexico. The redistribution places the Americans in position to meet any emergency.

The Felix Diaz movement is rapidly gaining strength. Diaz has unlimited funds, and if he is able to overthrow Carranza he may be able to get the official American support. Officials here had no confirmation of the report of the Obregon-Carranza split.

Scott to Stay on Border.

San Antonio, April 24.—Gen. Hugh A. Scott, chief of staff, has altered his plans for his return to Washington. It is reported that General Funston will soon leave for the border and Scott will remain in charge of affairs here. It is officially announced that Scott will confer with Obregon at Eagle Pass.

Villa Definitely Located.

San Antonio, April 24.—General Funston received word that Villa again has been definitely located, but refused to tell the whereabouts of the bandit. It is intimated the Americans are in position to round him up as soon as men and horses recuperated. Unless attacked the troops will remain passive awaiting orders from Washington.

One American Killed April 19.

Namiquipa, April 24.—One American trooper was killed and three wounded in an engagement April 19 between the Villistas and Major Howze's flying column of the Seventh cavalry, according to official reports from Howze. The engagement occurred near Lasca. Many bandits were killed.

Alarming Reports of Hostility.

El Paso, April 24.—Alarming reports of the hostility of the Carranzistas toward the Americans reached the border today. A Juarez rumor says that a large force of Carranza troops attacked a small body of Americans near Salvos Sunday and in the battle many were wounded and killed. General Gaviro, Carranza leader, at Juarez, said he had no official word of the conflict.

SUMMER SPRAY TOO

ORCHARDS WILL SHOW RESULTS
IN FALL.

SCABS AND WORMS DIE

First Just Before Blossoms, Next After
They Fall, and Third Ten
Days Later.

Summer spraying is essential in the production of first-class apples. Un-sprayed fruit is usually scabby and very often shows injury from codling moth or curculio. Wormy or diseased fruit has poor keeping qualities. Thus in order to have fresh apples during winter months it is necessary to practice summer spraying.

Spraying consists of applying to the growing fruit and leaves some substance which will either kill or prevent the growth of the insects and disease spores. Some form of arsenic is used to kill the insects, lead arsenate being the most common form. It may be purchased at local drug stores and costs from ten to twenty-five cents a pound. Sulphur is very effective in preventing the development of apple scab and other fungus diseases since disease spores can not develop in its presence. This substance in the form of concentrated lime sulphur may be purchased from companies handling spray supplies and in small lots will cost about fifteen cents per gallon.

The spraying schedule recommended on the basis of the tests and experience of the Missouri Agricultural Experiment Station calls for three sprays during the season. The first to be most effective against the apple scab should have been applied just before the blossoms opened. This spray of lime sulphur at the rate of three gallons of commercial mixture to 100 gallons of water is not very necessary in dry seasons because scab can develop only during damp weather.

The second spray applied just after the blossoms fall is most important and should be applied even though the first was not. It is made by mixing three gallons of commercial lime sulphur and five pounds lead arsenate paste with one hundred gallons of water. Since the lead arsenate and the lime sulphur are placed in the same solution, one spraying is sufficient to apply both substances. This spray serves as a further protection against the scab but its greatest value comes thru its effect upon the codling moth and curculio. Enough poison clings to the surface of the apple so that these insects are killed before they have done much injury. Serious injury comes only from the full development of the codling moth or "apple worm." The sting of the curculio causes apples to grow in deformed shapes and altho this may not materially lower the keeping quality yet very often a "sting" may serve as a place of entrance for some rot and thus be the indirect means of causing decay.

The third spray follows the second after an interval of ten days or two weeks but this application is not so important as the preceding one. The solution is made by using 3 gallons of lime sulphur and 5 pounds of lead arsenate paste to 100 gallons of water. It is effective against both insects and diseases.

If apple blotch or bitter rot are present, some later applications may be necessary but these are given only in special cases.

Miss Audrey Howendobler returned last evening from St. Joseph where she was the guest of Miss Popplewell for the week end.

DECOY FOR ZEPPELINS

NOVEL METHODS TO CAUSE
WASTE OF BOMBS.

Elaborate Artificial Scenery in England to Fake Factories and Other Aerial Targets.

Popular Science: A novel method of forcing raiding Zeppelins to waste their bombs is described by B. J. Bjerrstedt. In speaking of protective devices employed in the British Isles, the writer says:

"I am credibly informed that what might be called 'diversionary' protective measures have been employed with considerable success. These consist of various ingenious devices calculated to draw the fire of the Zeppelins away from the points where they could do the most harm. The idea is said to have originated in the mind of a Norfolk farmer after a pile of chaff which he had been burning on the night of a raid was made the target of several well-placed Zeppelin bombs."

"The Zepps thought my fire was the blast of the—mills," he told an air officer. "Why not have some ready to fool 'em the next time they come?" Since factories and barracks were the main objects of attack, why not provide some that could be found without difficulty and the destruction of which would be of small moment. The first experiment was made by cutting "window holes" in a row of billboards—"hoardings" the English call them—along a railway, and illuminating each orifice with a carbide lamp. When these came in for attention from the raiders, the present plan of using "stage scenery" factories and barracks as Zeppelin decoys was outlined.

"These decoys consist simply of sections of imitation walls, pierced with windows, which by means of guys and props, can be made to represent the side or skylighted roofs of a factory or barracks. Where practicable the illumination is furnished by running a cable from the nearest electric transmission line, and where this is too troublesome or expensive, carbide or kerosene lamps are employed. The sections hook or clamp together and are made small enough to allow of a stack of them being carried on one of the big war motor trucks."

BIG A. S. L. MEETING

PROHIBITION WORKERS AT AT-
LANTIC CITY JUNE 26-29.

A GREAT SPEAKERS LIST

Jewish Governor of Idaho, Catholic
Priest, and Congressman to
Address Convention.

Special to The Democrat-Forum.

Westerville, O., April 22.—Accept-
ances have been received by the com-
mittee in charge of arranging the
program for the seventeenth conven-
tion of the Anti-Saloon League of
America from many prominent men.

The convention will be held in Indian-
apolis June 26 to 29, with promise of
an exceedingly large attendance.

Governor Moses Alexander of Idaho
has accepted an invitation to address
the convention. He holds the distinc-
tion of being the only member of the
Jewish race to occupy a governor's
chair in the United States. He is the
most ardent and successful leader of
the dry forces in Idaho. In a letter
to the secretary of the program com-
mittee Governor Alexander writes:

"After a few months of enforcement
of the prohibitory law, Idaho is d-
lighted and rejoicing. Many who were
victims of drink have had the shackles
fall from them and are looking to the
future with renewed hopes and ambi-
tions. They are being rejuvenated and
put on the plane of equality with their
fellows. Whether or not I ever
make another temperance speech out
no figure, for state-wide prohibition
is a practical illustration of the result
of temperance and I feel proud of hav-
ing the honor of signing the law which
placed Idaho in the column of tem-
perance. After two months' operation
the law is looked upon as an absolute
success even by those who opposed it."

In the battle line of temperance
forces, no more critical position is any
where held than that maintained by
Ohio. James A. White, superinten-
dent of the Anti-Saloon League of Ohio
is scheduled for an address on "Ohio's
Program for Victory." Mr. White has
a magnificent and comprehensive pro-
gram, and declares that if he can put
boots on it and blood into it, Ohio will
swing into the list of dry states the
next time a fight is on.

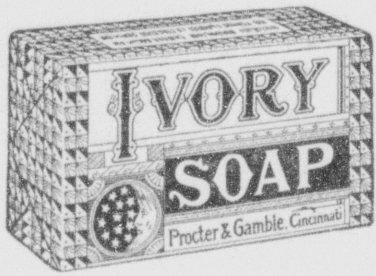

Frederick Landis of Indiana, a former
congressman and known every-
where as a master of wit, sarcasm and
word painting, will deliver an address
Tuesday afternoon, June 27.

Judge Samuel D. Weakley of Bir-
mingham, Ala., will speak on "One
Year of Co-Operative Prohibition in
Alabama." Judge Weakley has been
gathering statistics. He is in posses-
sion of facts and figures not obtain-
able in any other Prohibition state,
with which he will completely refute
the lies in the year book of the Na-
tional Brewers' and Wholesale Li-
quor Dealers' Associations.

No more venerable or distinguished
figure is to be found anywhere in the
ranks of temperance leaders than that
of Jonathan K. Taylor of Baltimore.
Mr. Taylor was an important man at
the Atlantic City convention last year.
He not only gives largely of his means,

but also of his time and thought to the
temperance cause. He will preside at
the closing session of the convention
and make an appropriate address.

Prominent in the ranks of Catholic
temperance leaders is Rev. Father J. J.
Curran of Wilkes-Barre, Pa. Father
Curran will preside at one of the ses-
sions and bring a message of hope con-
cerning the victorious conclusion of
this great fight when all Christian
forces unite on a program for national
Prohibition.

THE first requisite of a soap for the toilet is mildness.

Mildness depends upon the quality of the materials used in the making, the absence of free alkali and the absence of bleaches, fillers and other foreign matter.

Ivory Soap is made of the best materials that can be bought. It contains no free alkali. Nothing is put into it to make it white, to increase its weight or to soften water.

That is why Ivory Soap is so mild that it can be used with comfort and safety on the tender skin of a child.

NEWSPAPERS BEST FOR ADS

Hugh Chalmers Gives Sound Reasons for Preferring Columns to Any Other Medium.

Hugh Chalmers, head of an automobile corporation of the same name, remarked to the Ad Club recently that "newspapers are the best medium of publicity," and added that "he does not place advertising copy with newspapers because he agrees with their editorials, but because they have circulation and reach the people."

The statement of the reason for advertising through the papers is a sound statement and is well expressed. The fact that Mr. Chalmers advertises heavily through the press and is suc-

cessful in business adds the weight and force of experience to his views.

The newspaper has proved itself in strenuous competition with other mediums of publicity to form the most effective means of reaching the public. The intelligent advertiser uses the paper without the slightest regard to its political position or editorial expressions upon questions of public policy. He buys advertising space, not because the paper is of this party or of that sect, but because it has a circulation among purchasers of his goods.

He carries on his advertising as he carries on his business. He invests in advertising in a paper because it promises good returns on his investment.—Spokane Spokesman Review.

SAVING IS SAFETY FIRST.

Might Spell It "Save-ty" Thinks Chap-ple.

"Safety First" is the slogan of the hour, and its application is a broad one. To insure the safety of the nation, advantage must be taken of all the opportunities afforded at this moment; the resources of the country used to a practical end; the waste places made to bloom. Secretary Redfield has already issued a proclamation asking the people to save their old rags and papers. "Saving" is ever the first step toward "safety," and if there's anyone thing our country needs today it is "save-ty" as well as safety. —"Affairs at Washington," Joe Mitchell Chapple, in National Magazine for April.

PARROT ANNOUNCES VISITORS.

Unusual Intelligence of Bird Has Aroused Neighbors' Interest.

Pulaski, N. Y.—Mrs. M. L. Halladay of Mexico has a parrot thirty years old. The bird is unusually intelligent and has aroused much interest in this section of the state. The bird was brought out of Mexico when only four months old and shipped to Syracuse. The change of climate affected the bird, but it recovered. It was later taken to the village of Mexico, where much care and attention were given it.

If a person comes and knocks at the door of the Halladay home the parrot will announce the visitor, often calling the person at the door by name. When the bird is hungry it does not hesitate to announce the fact, and when there is any other discomfort the bird's wailings attract attention.

A Fellow Feeling.

There had been several little shortages in the petty cash, and at last the partners in a certain firm set a trap for the pilferer.

It succeeded. The culprit was the office boy. The junior partner was so incensed that he wanted to call in the police and give the lad in charge without further delay.

But the senior partner was a kind old man. He took a more humane view of the situation.

"No, no," he said gently. "Let us always remember that we began in a small way too!"—St. Louis Post-Dispatch.

Saffron as a Perfume.

It seems strange to us today to read of saffron as a perfume. But such it undoubtedly was almost universally, and the element of "romance" about it lies in the story told by Hakluyt of a pilgrim smuggling, at the risk of his life, from the Levant a head of saffron in a hollow made in his staff, from which grew the plantation which gave its name to Saffron Walden.—London Mail.

The Lion's Share.

"Taking the lion's share" is borrowed from Aesop. At the end of a joint hunt the animals wished to divide the booty. The lion claimed one-quarter of the spoils by right of prerogative, one for superior courage, one for his dame and cubs, and, "as for the fourth, let him who will dare dispute with me."

The Submarine.

To get a submarine ready for diving water is admitted into the "ballast" tanks. To keep the vessel on an even keel water is taken into the "trimming tanks." By means of these tanks the vessel is made to sink or rise and to preserve the right position.

Broken Jaw Causes Starvation.

Woodland, Cal., March 15.—A man died in a local hospital recently as a result of injuries sustained when he fell from the county bridge at Tancred. He suffered a compound fracture of the jaw, since when he had not been able to masticate food or to take nourishment properly. Gradually he wasted away, literally from slow starvation. The victim was an expert orchardist and had lived in Woodland for several years.

Miss Bessie Brown Married at Columbia.

The wedding of a former Maryville girl and a graduate of the Maryville high school is told as follows in yesterday's University Missourian:

Miss Bessie Idela Brown of Columbia and Earl Thomas of St. Joseph, both graduates of the university, were married at 3:30 o'clock Saturday afternoon at the Presbyterian church in

Columbia in the presence of relatives and a few near friends. The ceremony was performed by the Rev. Hamilton Taylor Guthrie of Crocker, Mo., at cousin of the bride. Miss Elta Wood played the wedding march. Robert Brown, a brother of the bride, and Miss Bertha Brandt sang, accompanied by Miss Alice Barr.

The bride is the daughter of Dr. and Mrs. W. H. Brown, 1106 Paquin street. She was one of the two women to receive a B. S. in Agr. degree from the university last year. The bridegroom is the son of Dr. and Mrs. R. W. Thomas of St. Joseph. He was graduated from the college of agriculture last June.

Those present from out of town were Mrs. Frank Wright of Mount Vernon, Ind., a sister of the groom, and Mc-

Bolivar Women Endorse "Outside" Treatment For Children's Colds

Instead of Dosing Delicate Little Stomachs They Recommend the External Treatment—Vap-O-Rub.

Mrs. M. J. Porter, and Mrs. J. Jacques, of Bolivar, Mo., and Mrs. M. E. Ferrel, on Rural Route No. 2, like all intelligent mothers, believe internal medicines are bad for children, and yet cold troubles must have some kind of treatment. When Vick's Vap-O-Rub was introduced here from the South last season these ladies found it filled the need exactly. Vap-O-Rub is a salve, which, when applied to the warmth of the body, is vaporized by the body heat. These vapors, inhaled with each breath, carry the medication through the air passages to the lungs, and, in addition, Vick's is absorbed through the skin, relieving the tightness and soreness. This two fold action makes Vap-O-Rub useful for a wide variety of inflammations—from inflammations of the air passages and lungs, such as head colds, catarrh, asthmatic troubles, bronchitis and deep chest colds—down to inflammations of the skin and tissues, such as

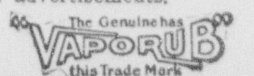

burns, bruises, stings, piles and muscular soreness.

Mrs. Porter says—"Vap-O-Rub is very fine for sore throat, rheumatism, etc. I take pleasure in recommending it."

Mrs. Jacques says—"I have used several bottles of Vick's Vap-O-Rub, and have found it better than internal medicines."

Mrs. Ferrel writes—"We have given Vap-O-Rub a fair trial and find it excellent for croup, colds, sore throat, etc. It is certainly fine for children. We have also found it very good in cases of sunburn, fever sores and muscular rheumatism." Three sizes, 25c, 50c or \$1.00.

NOTICE:—Last winter, in order to acquaint their customers with Vap-O-Rub, a number of druggists throughout the state presented complimentary jars to a few of their customers, on condition that they give this preparation a thorough trial and report the results. By kind permission these reports are now being used in this series of advertisements.

The Power behind the dough

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure if "The Power behind the Dough" is not the right one to leaven it properly and make it light, digestible, wholesome.

Good baking without good baking powder is out of the question. K. C. Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain.

Take no chances of failure—use K. C. and have "good luck" every time. At all Grocers.

M. H. S.-GRANT CITY TUESDAY

Prospects Bright for Opening Game Tomorrow at Fair Grounds—Normal-Kirksville Here Thursday.

The high school baseball season will open on the Federal diamond at the fair grounds tomorrow afternoon. The weather looks fair, the forecast is fairer, so we may get to see the M. H. S.-Grant City game at last. The team will leave there tomorrow morning unless it is raining.

Next Thursday Kirksville normal comes for a game with the Normal here. The following day, Friday, the high school goes to Mound City for a game, so our base ball appetites should get in good shape for the opening of the Fed's season with Shenandoah here next Sunday.

"PLAIN BRED" BULL ENOUGH

That Will Raise Value of Every Cow and Steer on Place, Says Lawrence Ogden.

All you have to do to increase the value of every steer or cow you raise—and let the stock market be the test—is to have a "plain bred" bull on your place, declares Lawrence Ogden of Maryville, who is making a name for himself with Shorthorns.

"I don't mean a speculative value of \$10 to \$25 added to each animal," he told Profitable Farming magazine. "I mean the actual value on the market. And such a bull can be bought for \$150."

Ogden the other day paid \$626 for a 2-year-old Shorthorn heifer, and he believes she'll make the firm of E. E. Ogden & Son, of which he's the junior member, more money than any other animal they ever had on their place. And at that she cost just \$1 more than the ten cows with which they started out five years ago.—Profitable Farming.

GOOD FOX SCHOOL RECORD

Seven Pupils of Forty-one Enrolled Miss a Day and Were Never Tardy, Big Closing Thursday.

Claude, Bennie and Lawrence Thompson, Clyde Canaday, Harry Logan, Edith and Clyde Beattie are the honor students among the forty-one who were enrolled at the Fox school southeast of Arkoe this year. They were neither absent or tardy during the term.

Opal Thompson, Claude Beattie, and Ethel Beattie were close behind each being absent less than four days and never tardy. Miss Nellie McKnight is teacher of the school. The patrons of the school gathered Thursday in a basket dinner of the "fit for the gods" variety.

A track meet and baseball game had been planned but had to be called off on account of the rain except for some of the track events.

SHENANDOAH WINS 2-1

Felbert-Stephens Battery of Kansas City Works for Maryville—Here Next Sunday.

The Maryville Feds lost their opening game Sunday at Shenandoah by a score of 2 to 1, the winning tally for Shenandoah being made in the last half of the ninth inning when two men were out. It was a creditable game for the Maryville team as it was their first one and the first time they had played together.

Stephens and Felbert of Kansas City was the battery for Maryville. Stephens has been hired by Cleve Funk, the manager of the team, to catch for the Feds. Tilson played first base, Miller, 2b; Scott, ss; Perrine, 3b; Woodard, 1b; Linniger, cf, and McCullough, rf. Maryville secured six hits while Shenandoah got four. Dr. Linniger for Maryville got two of the six hits.

The battery for Shenandoah was Castle and McKee. Castle was catcher for the St. Joseph team and also used to be a member of the Mink league. Shenandoah will play here next Sunday at the Federal ball park at the fair grounds. The game will be called at 3 o'clock. A band concert will be given at the park by the Fourth regiment band, beginning at 2:15 o'clock.

HARMONY SPIRIT TOLD

NODAWAY COMMUNITY CENTER AGAIN WRITTEN UP.

Profitable Farming Says It is Commanding, Almost Dominating Force, of That Section.

Harmony community, that six miles of bustling, unified people in Nodaway county, Mo., doesn't depend for its fame on any fine building set down as a monument to mark its center, says an article in the current number of Profitable Farming. The central building, in fact, is only a pretty good frame country church building, but throughout that community, which gives heed to the leadership of Rev. C. R. Green, the pastor, there is progress on every hand. There are good buildings, cozy homes, fine barns, blooded stock, good roads, a Shorthorn circle with twenty-two charter members, all pledged to the one breed and imbued with the idea of making the community famous for that breed, and a brand of sociability that is astonishing.

The domination of the church is rarely thought of, but the young men and the young women's societies, the gun club, the basket ball and base ball teams, the band, the chorus, and several other organizations, draw their members from the whole community, and when there are lectures and special meetings for the discussion of community enterprises, all attend.

The pastor knows his flock, too, and has the name of every person in the community down on a card index. He also has a plat showing every home and farm and road in the whole community.

The community had its start in 1878, with six members of a church society. It grew and wrestled with a cyclone that blew away the church, which was gathered up from over the landscape and rebuilt. Rev. Mr. Green has been the pastor for seven years.

One of the institutions of the community is an annual home coming celebration—this year June 11—which draws as many as 2,600 people from all over the country. A big, free country dinner, served by the women of the community, and famous for its bountifulness and delectability, is a feature of the occasion. There never were enough people there to eat all the food, either.

Mr. and Mrs. L. M. Cox of Kansas City, who have been the guests of their son, the Rev. Gilbert S. Cox, and Mrs. Cox, left today for Des Moines, Ia., where they will visit their son, E. L. Cox.
